allergy

gluten

Only our farro and our flour tortillas (for burritos and quesadillas) contain gluten. Everything else is gluten free. Tacos, Platos, and Salads without farro are great gluten free choices.

vegan/vegetarian

Everything we offer is vegan except our meats, cheese, and sour cream.

corn tortillas

These taco tortillas are 100% corn with no preservatives or additives. They are made fresh every morning by Tortilleria Nixtimal in Queens.

soy

There is soy in our rice and chicken marinade. Our tortillas for burritos and quesadillas are made on equipment that also processes soy.

gm0s

There are no GMOs in our flour tortillas, corn tortillas or rice. Our corn chips however do contain GMO corn (90% of the US corn crop is GMO), as do our corn and soy oil.

dairy

There is zero dairy in anything we sell except our cheese and our sour cream. Our cheese is Monterey Jack, and it is naturally lactose free.

nuts

There are zero nuts in anything at DT. There is however sesame oil in our smokey hot sauce and our lime vinaigrette salad dressing.
